

LED_TurnOn

```
graph LR; A[LED_TurnOn] --> B[GPIO_enumWritePinVal]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text "LED_TurnOn". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "GPIO_enumWritePinVal". Both boxes have a thin black border.

GPIO_enumWritePinVal
